### **NOTICES**

✓ "Discovering Your Family History"
Seminar—A five-part Family History Seminar
organized to assist in learning the best methods of
researching your family history will be held
Saturday, 22 February 1992 at the New York Family
History Center, 2 Lincoln Square (125 Columbus
Avenue) at 65th West and Columbus (across from
Lincoln Center) in New York City, with registration
at the door (\$7 registration fee; \$4 for lunch) from 8
to 9 a.m., and sessions beginning at 9 a.m.

Topics covered include the "how-to" of researching various U.S. Government Sources, as well as classes on German, Irish-American, Italian, Polish and Eastern European, Afro-American, Ellis Island, New York Public Library, New York Genealogical and Biographical Society, and beginning research, archival preservation, and computers.

For more information, call Henry Rock at 212-873-1690.

✓ NE Regional Branch of National

Archives—According to a recent issue of the Westchester Genealogical Society newsletter, the Northeast Regional Branch of the National Archives will move from its current location in Bayonne, NJ to the 12th floor of 201 Varick St. (corner of Varick and Houston Streets), Manhattan, in the spring of 1992. Apparently various records will be moved at different times, with the genealogical section being the last to move. Beginning with the early part of 1992, it will probably be wise to call first to make sure the particular records you wish to consult are available.

✓ Rockland County Wills Microfilmed—According to an article in the Rockland Journal-News January 19, 1992, during the past two years some 2,400 wills dating between 1798 and 1931 have been microfilmed (before 1798 Rockland was part of Orange County and wills probated prior to that year will be found at the courthouse at Goshen). Many of the earliest wills were in crumbling condition and too fragile to be subjected to the handling requested by researchers; another concern was that the storage room was not fireproof. These wills are now microfilmed and so fire or flood can't wipe out thousands of pages of Rockland history. The two sets of microfilmed wills are kept at the

Surrogate's Court at New City and in an underground vault in upstate Ulster County. At present, however, the court has no microfilm reader, so currently the microfilmed wills are not usable by the public.

✓ 1876 Walker's Bergen County (NJ)

**Atlas Reprint** 

A. H. Walker's 1876 Atlas of Bergen County, New Jersey has been reprinted and is available for \$55 (NJ residents add 7% sales tax) plus \$5 shipping; order from Bergen Historic Books, P.O. Box 2094, Teaneck, NJ 07666-2094. This atlas contains detailed maps, showing houses (most with owner's names) and buildings, county and town history, listings of government and community leaders, and names of professionals and businesses. The atlas has been reduced in size to 13-1/2" by 11" and a personal name index has been added.

# LETTERS

From Helen Nuessle, Hatboro, PA, December 16, 1991:

...We are Great-grandparents for the first time. A NEW generation for my history. Our eldest grand-daughter Kimberly Ann Nuessle Weir and her husband Edward presented us with a little boy named Alexander George Weir on Sept. 16 of this year. He was premature, only weighed 4 lbs. 10 oz. He is now over 10 lbs. and is just 3 months old today.

# Old Dutch Burying Ground and Lent Family Research

Program presented by William Lent at the October 22, 1991 meeting of the Genealogical Society of Rockland County

Notes by Joan Brooks, Recording Secretary

Bill Lent is one of the "Friends of the Old Dutch Burying Ground" in Tarrytown, NY. He is a volunteer, who is restoring the Burying Ground, which is located adjacent to the Sleepy Hollow Cemetery. Bill has also done extensive research on the Lent family, even going to the town of Lent in the Netherlands.

#### Old Dutch Burying Ground

This cemetery possibly goes back to the year 1640. The Philipse family settled in that area about that time, and they certainly must have buried their people somewhere near where they lived.

The old church and burying ground have been kept up through quite a bit of effort. The first record of the burials there was in 1926, when the Historical Society of Tappan (located in Yonkers) published a small book giving a rough location of the burials. However, it indicated only a portion of the actual

burials there, as was discovered later on. Sometime later, Rockefeller hired a stone preservationist to work on the cemetery. Working with a Mr. Perry, stones were found antedating 1860—this was then published in book form.

It was only this year that a more complete list of the burials was found. When the First and Second Reformed Churches of Tarrytown decided to merge (this took about a year), all old papers from both churches were carefully scrutinized. The list was found—there were over 1600 graves! So, the Rockefeller book is incomplete.

Bill mentioned another less-used resource for cemetery burials. The WPA did a Veterans' survey. These surveys should be located somewhere in County records. The surveys consisted of marked-off graves in many cemeteries. Finding where the surveys are located in each county can be a problem.

Bill was able to get into the DuBois family vault and discovered 17 burials there, which they hadn't known before.

#### Lent Family in Westchester County

Westchester County Historical Society has a collection of material on the Lent family. Many people have written stories on this family, and there is other information located at the Society. If you figure mathematically from two brothers who started a land grant in Peekskill down through 16 generations, there is a massive accumulation of numbers of descendants.

This past summer, Bill actually visited the village of Lent in the Netherlands. It is located in the southeast corner of the country. Part of the written history that has been publicized infers that members of the Lent family were with William the Penniless in 1096 during the Crusades. Bill has accumulated some information on the Lent family, which he'll gladly share with anyone interested. He also directs people to both the Westchester County Historical Society and the Genealogical Society.

Bill made a big point of stating that mostly one hears about important men in a family, forgetting that many women should be given credit also.

#### Questions and Answers:

Q: What is the name of the woman who lives in Shrub Oak who was working on a Lent genealogy some time ago?

A: Bill couldn't recall her name, but said that part of her work was put into the Peekskill Public Library. He noted that there is a German book on the Lent family history, which he is trying to obtain. He also noted that everyone with the surname Lent is not necessarily related—it just means that they all originated from the village of Lent.

Q: Did the Rikers come from Lent and settle in

#### Staten Island?

A: No one really knows. There are many spelling variations (i.e., Riken in Peekskill; Riker on Riker's Island). They were all actually part of the same family.

Q: Where is the cemetery listing of 1,617 names located?

A: Bill has a xerox copy of the list (which we copied for our Society). There is also a copy in the Old Reformed Church at 242 North Broadway, Tarrytown (brown binder—indexed).

Q: Would your Historical or Genealogical Society consider publishing this list?

A: As far as he knows, this hasn't been considered. Bill noted that it was merely sheer accident these lists were found. They didn't even know they existed until the two churches were merging. The list consists of about 46 pages plus a map, giving grid location, stone number, and name. Ray Willsea took the map to a photographer, who then refined it. They now have a mylar master, which gives very clean markings and stone numbers.

Q: What is the earliest stone that has survived?

A: The earliest legible stone is an infant whose father was a French Huguenot from Mamaroneck and a mother who was Dutch. The child's name was Elizabeth Guion, who was born and died in 1755. The earliest dated stone is a fieldstone marker—part of which is illegible: 17 to 1750.

There is a group of volunteers who usually go out on Sundays about 2 p.m. to lead tours around the cemetery. They talk about approximately 35 stones.

Q: Do the records in the Westchester Historical Society contain Rockland County Lent family records?

A: As far as Bill knows, they are all Westchester people. It might help if one would write to the Library of Congress to see how many books have been written on the family of Lent.

Sally Dewey said there is a Lent sandstone house outside of Tappan, on the Flintkote grounds. There is word that it may be sold to a developer.

As a final note, Bill stated that he has gone through many books and materials on the Lent family and has come up with at least nine different spellings of the name (i.e., Lendt, Lentte, Lant, etc.).

# Dictionary of **Rockland County Place Names**

Compiled by Pat Wardell

This started as a personal project for my own information and it is certainly far from complete. I hope that even in its incomplete form it might be helpful to others, and at least a start for a more complete listing. I hope that members will add to (and correct, if necessary) the information given in this alphabetized series. References are cited. If you find place names in deeds, records, and other documents, I would like to know so that I can add time frames and further information to these usages. -Pat Wardell

(continued from December 1991 issue)

Early name for the vicinity of present Mahwah, N.J., where Ramapo Road crosses Route 17. An early store and trading post was established here, supposedly by Robert Erskine (originally as a depot from which to supply the forge and mine workers of the Ringwood area).

• "Dater's Works"—Green, Frank B., The History of Rockland County. New York: A. S. Barnes & Co., 1886, p. 396.

#### Dobb's Ferry [West of the Hudson]

Name sometimes used indicating the landing at Palisades, Rockland County, N.Y., on the west side of the Hudson River, which was also called Sneden's Landing (or Snedens Landing—without the apostrophe). There was a blockhouse above Sneden's Landing during the Revolution. Dobb's Ferry now refers to the locality on the east side of the Hudson River, in Westchester County, N.Y. Its name comes from the Dobbs family, various members of whom ran a ferry across the Hudson here and who apparently at one time held the wharfage, and ferry rights, on both sides of the river.

# 1855 NEW YORK STATE CENSUS, ROCKLAND COUNTY Transcribed by Pat Wardell

Please see December 1990 issue (p. 6) for general information about this census and about this transcription.

Editor's Note: Last issue I told you that my entire transcribed file for these records disappeared from my hard disk and because I had returned the Xeroxed copies of this census months ago, I was back to struggling with reading just the microfilmed version for this transcription. The update is that thanks to Les Baisley's generosity in loaning me once again the Xeroxes, I am once again transcribing from both Xeroxed and microfilmed records, which makes the work much easier and the level of errors (it is our hope) much fewer. Many thanks, once again, Les!

Explanation of the Diseases:

For a more complete explanation of these and other diseases see the article by Dr. James Carter, "Disease and Death in the Nineteenth Century: A Genealogical Perspective," pp. 289-301 in the Dec 1988 (V. 76 #4) issue of the National Genealogical Society Quarterly. In this article Dr. Carter points out that many times the cause of death listed in the mortality schedules was simply symptoms of the disease and not a precise diagnosis of the actual disease causing the death. (Also see: Genealogical Helper, 42 (4) July-Aug 1988, p. 11, "Medical Terms for Genealogists" by Susan White.)
