IMPORTANT MESSAGE FROM THE PRESIDENT

For more than 12 years, The Genealogical Society of Rockland County has kept its Membership Fee at \$15.00. Many people consider it the best bargain in Rockland County. Where else can you learn of the newest developments in researching your genealogy or have specific questions answered by mail, email or in person? The GSRC Board of Trustees offers "Beginner Genealogy Workshops", one-to-one assistance and monthly programs on informative topics. Due to the popularity of members receiving an Electronic copy of our Newsletter and the rising cost of printing, copying, cartridges and postage, the GSRC Board of Trustees has unanimously voted to offer its members the option to continue receiving an **electronic copy of the Newsletter for the basic \$15.00 membership fee** or to opt for a **hardcopy edition for a \$20.00 membership**. The average Newsletter runs 30 pages and is eagerly awaited by our members, some who live in other states and abroad. With the popularity of genealogy reaching into mainstream America with TV shows like "Who Do You Think You Are" and "Finding Your Roots", now is the time to reach out to family and friends, and tell them about the great programs, resources and website the GSRC offers.

What kind of programs have we offered in the past? Maybe you are interested in researching Military Records, a wonderful program offered by Tony Lauriano. How about "Share Your Favorite Website", where members and non-members gave short presentations on sites that are most helpful in researching ancestor information. Joseph Leiby, Ed.D., gave a presentation on "Researching Your Ancestors in Kleindeutschland--Little Germany," (New York City). Craig Long, a Rockland County Historian, spoke about "The Role of the Historian and His or Her Connection with a Genealogical Society." Reuben and Mary Kate Brown offered "The Rose Family." How about a "Slide Presentation on the Nyacks"? or "Using Ship Passenger Lists & Naturalization Records." Perhaps "Census, Probate, Land and Tax Records" has an appeal to you. At the GSRC program nights, you'll meet friends, laugh and have refreshments. Our speakers are very knowledgeable like author, Greta Nettleton, who wrote "The Quack's Daughter" about her great-grandmother who became a millionaire in the 19th Century selling patent medicine, and her daughter who was a concert pianist. The program opened with Mimi Swabada playing Beethoven's "Moonlight Sonata." These are just a few of the wonderful programs offered to members and the public on the 4th Tuesday of every month at 7 pm.

GSRC PROGRAM SATURDAY 17 MAR 2012.

President Tom Riley presented a very interesting program on HAPPY VALLEY. This was his foster home, along with his siblings and many other boys and girls, until he, and they, graduated from High School.

Many of the former students who attended the Happy Valley Home and School became important members of their adult communities, in all the professional and non-professional careers. One young man became a runner and is now on the Rockland County Sports Hall of Fame.

Many passages were quoted from "Happy Valley School. A History and Remembrance" that Tom wrote after a reunion on a Sunday in July of 1992 of former residents of the school. When Tom and his siblings arrived at the school and saw the faces of the kids staring at them they had pangs of homesickness from being uprooted out of a nine-month stay with foster parents.

Not all the children who lived there had good feelings about their life at Happy Valley --Tom did. He enjoyed being out in the open country, the farm work that they all had to participate in – taking care of the vegetable gardens, and the farm animals.

The cottages housed about 14 children in each; fortunately, for the most part they all got along nicely. Grades 1-8 were required to stay on the grounds. High school students could do outside work like mowing lawns, or doing errands to make money. They all found plenty to occupy themselves when not doing the required work or study: there was riding bicycles, running, climbing, all kinds of sports, and the usual things boys and/or girls did before television, I-Pods, cell phones, and computers.

When they graduated from high school, they are out Happy Valley. It was a traumatic time for most as they were used to living in a group, and now they were totally on their own and unprepared. For Tom, and many others, they joined the U.S. Air Force or other branches of the service after graduation. When Tom was discharged from service, he stayed with an aunt for a while, then he enrolled at Columbia University in Manhattan and lived in a small apartment. In 1992, all the buildings at Happy Valley were vacated to make way for Minisceongo Golf Club. The clubhouse remained. During construction many artifacts were unearthed. The finds, c. 7,000 B.C., were catalogued by Columbia University and were to be on display in the Field House. While working in the plowed fields, the children often found arrowheads.

The reunion was a success for the attendees who had been long out of touch with each other. Now they renewed their acquaintances and shared many happy, and unhappy, memories of their lives at Happy Valley and caught up on what the future had held in store for them.

QUILTS & FAMILY GENEALOGY PROGRAM

Deborah Calyo presented a very interesting program this evening that had many of the guests ready to go home and try out her suggestions for making heirloom quilts, pillows, and pictures.

With technology today, it is easy to purchase prepared iron-on fabric on which to transfer your photograph. (Read the instructions before starting the process.) To use this process, the iron is lifted and placed on each area rather than running the iron as usual. This ensures a perfect picture. There are special iron-fabric sheets for use on dark fabric.

Today, a picture can be scanned and printed directly onto a special paper (similar to photograph paper); place it onto your fabric and it is ready to enhance the edges by embroidery or sewing.

The purchased iron-on sheets are quite expensive; a similar sheet can be made at home with a very fine batiste glued onto freezer paper. Papers with fancy borders are available to be used to make a framed photograph or on a quilt or a pillow.

Another suggestion made by Deborah is, if there is to be writing on the design, it needs to be in reverse order so that it is in proper order when one looks at the finished product (practice reversing). There is a specific archival-type pen to use, Pigma .

In storing your quilts (and/or tablecloths), it is best to roll the fabric rather than fold it. Store the rolled quilt inside a PVC pipe. The pipes will not be crushed and can be stored one upon another.

For suggestions on quilting with photograph embossed thereon, check out this web site:

www.5DFamilytree.com. Supplies are available at fabric stores like Joanne's Fabrics & The Rag Shop.

Help Needed

We are working on several projects and we have reached the proofreading stage. We like to have the information that we printed in books and online proofed three times. We are also proofing the St Peters Church Cemetery. The stones have been recorded, but need to be checked for accuracy. The 1925 Rockland County Census is also being proofread. The census can be done at your home. If anyone is interested and lives in the area please contact me. Les Baisley freeman@aol.com

SUMMIT PARK CEMETERY – A GENEALOGICAL TREASURE IN ROCKLAND COUNTY

by Linda J. Peterson ©

Summit Park Cemetery began as a typical family farm burial ground. The cemetery was located on Shady Side Farm, the estate of the Johnson Family. The farmhouse of Shady Side is the only historically marked property in the small village of New Hempstead. In the 18th and 19th Centuries, the Johnsons were prominent Ramapo landholders. The Johnsons served in numerous positions in local and state government, and continuously occupied the farm until the mid-20th century. In 1826, Gilbert and Phoebe Johnson deeded five acres and a small farmhouse, rear wing of present house, to their son, Daniel. He added the two and one-half story east section in 1836.

In 1868, Daniel's son, Erastus Johnson, completed the house. In 1881 Erastus incorporated the cemetery, located just down the road from the farmhouse. The cemetery, which already included other local families for burial, officially began. Families with the largest presence in the cemetery include: the Concklins, Eckersons, Greens, Gurnees, Hamiltons, Hauptmans, Jerseys, Smiths, Springsteens, and Woods. Other famous Rockland County families are also buried there such as the Blauvelts. These same family members have traditionally served on the Board of Trustees. The current cemetery board president owns The Orchards of Concklin in nearby Pomona, one of Rockland's oldest working farms still in operation today.

Today, Summit Park is easily accessible to genealogists. It's located on two acres off New Hempstead Road. The cemetery consists of approximately 633 internments with only a few graves sites open for sale. Proceeds from plot sales are the initial source of revenue for all cemeteries. These funds build a permanent maintenance account to support yearly costs. Due to the economic downturn and coinciding low return on investments, maintenance costs have outpaced income the past several years. An added strain occurred in 2011 when expenses increased substantially from downed trees caused by Hurricane Irene in August, and then the pre-Halloween snow storm in October. While this non-profit cemetery is currently well-maintained, Summit Park is seeking donations to offset these costs and ensure future preservation. If you would like to help maintain this genealogical treasure of Rockland County, contributions can be sent to: Summit Park Cemetery, Inc., c/o Charlotte Donnelly, Treasurer, 8 Utopian Avenue, Suffern, NY 10901.

Linda J. Peterson is a practicing Elder Law attorney in nearby Bergen County, NJ. She is a direct descendant of the Johnsons, as well as the Blauvelts, Eckersons, and Peterson families, all interred at Summit Park. In the family tradition, she has served as a Trustee of the cemetery since 1999.
